Ms. Melissa Gulli
Quality Assurance Manager
Analytics Environmental Laboratory, LLC
195 Commerce Way, Suite E
Portsmouth, NH 03801

Dear Ms. Gulli,

This correspondence addresses the status of Analytics Environmental Laboratory, LLC of Portsmouth, New Hampshire in the Navy Installation Restoration (IR) Quality Assurance (QA) Program as administered by the Naval Facilities Engineering Service Center (NFESC).

Your laboratory is accepted to perform sample analysis for the methods listed in Table 1. The period of acceptance expires July 12, 2006. The period of acceptance is consistent with the evaluation cycle identified by the Navy IR QA Program. This acceptance does not guarantee the delivery of any analytical samples. Acceptance is facility specific and can not be transferred to an affiliated or subcontract laboratory.

The Navy's assessment included a review of the laboratory's QA manual, selected standard operating procedures (SOPs) and SOP master list, list of major analytical instrumentation, performance test (PT) results and onsite audit documentation¹.

The Navy reserves the right to conduct additional laboratory assessments or to suspend or revoke acceptance status for any or all of the listed parameters if deemed necessary.

Table 1

METHOD	PARAMETER	Matrix
8015B Mod	TPH - DRO/GRO	Water
8015B Mod	TPH - DRO/GRO	Solids
8081A	Organochlorine Pesticides	Water
8081A	Organochlorine Pesticides	Solids
8082	Polychlorinated Biphenyls	Water
8082	Polychlorinated Biphenyls	Solids

¹ The State of New Hampshire conducted an on-site assessment under the National Environmental Laboratory Accreditation Conference (NELAC) requirements on April 26-27, 2004 and May 7, 2004.

NFESC 413
May 12, 2006

8151A	Herbicides	Water
8151A	Herbicides	Solids
8260B	Volatile Organics	Water
8260B	Volatile Organics	Solids
8270C	Semivolatile Organics	Water
8270C	Semivolatile Organics	Solids

Acceptance for use for parameters not identified on the table will be determined by Navy project personnel.

The laboratory should notify NFESC if there are parameters not presented on Table 1 that the laboratory expects to run on a routine basis in support of Navy installation restoration projects. In these circumstances the laboratory's capability to run the tests will be reviewed and the table will be modified accordingly.

Questions concerning the information provided should be directed to the NFESC IR QA Program coordinator, Ms. Patricia Moreno at (805) 982-1659, or via email at pati.moreno@navy.mil.

Sincerely,

For Robert J. Kratzke
